EDUCATION & CORE SKILLS

Diploma in Business & Financial Technology (CGPA: 3.85) | Nanyang Polytechnic (2024 – 2028)

- Director's List: Year 1 Semester 1, Year 1 Semester 2

Programming & Development: Python, Java, C#, JavaScript, TypeScript, HTML, CSS, React, Next.js, Flask, Node.js, .NET, Android Development, Object-Oriented Programming (OOP)

Databases & Software Engineering: SQL, SQLite, MongoDB, REST APIs, Flask API Development, Socket.IO, ADO.NET, Data Structures, Algorithms, CRUD Operations, Authentication & Authorization, RBAC, Git/GitHub, Testing & Debugging

Data, Tools & Technologies: Power BI, Microsoft Excel, Data Cleaning & Transformation, Data Modelling, KPI Development, Data Visualisation, Visual Studio Code, Visual Studio Community, Android Studio, Figma, Canva, Raspberry Pi, Arduino, IoT Prototyping, Sensor Testing & Calibration

RELEVANT PROJECTS

EchoSync – SCDF × Dell Lifesavers' Innovation Challenge 2026 Finalist (Mar 2026 – Jul 2026)

Project Lead | Business Analysis | Product Strategy & Edge IoT Systems

- Engineered an AI-assisted emergency response prototype, selected as a Top 5 Finalist among 81 teams from 17 Institutes of Higher Learning in the SCDF × Dell Lifesavers' Innovation Challenge 2026.
- Integrated real-time sound, motion, distance and load sensor data through Arduino and Raspberry Pi edge devices to detect potential falls, distress events and unusual inactivity.
- Developed privacy-conscious sensor-processing and emergency alert-routing workflows connecting an operational dashboard, caregiver application and community responder escalation interface.
- Designed explainable risk-assessment logic and multilingual voice check-ins to support timely emergency-response decisions while reducing reliance on intrusive monitoring.
- Led multidisciplinary development from requirements and prototyping through hardware testing, sensor calibration, system integration and final solution delivery, presenting the solution to industry judges and senior government representatives.

Legacy Garden – Dell InnovateDash 2026 Finalist (Oct 2025 – Feb 2026)

Project Lead | Full-Stack Development & User Experience

- Led a five-member team in developing Legacy Garden, a full-stack digital storytelling platform connecting seniors and youths, achieving 1st place among 30+ competing teams within the diploma cohort.
- Developed story posting, commenting and real-time messaging features using Python, Flask, SQLite and Socket.IO, implementing CRUD operations, role-based access control and relational database structures.
- Applied data structures and algorithms, including lists, arrays, dictionaries and sets, to support story searching, filtering and relevance-based ranking of user-generated content.
- Integrated an AI-based image moderation API with threshold-based validation logic for explicit content, alongside inappropriate-language validation and speech recognition to improve platform safety and accessibility.
- Collaborated through Git/GitHub using branches, commits, pulls and merges, progressing through prototyping, implementation, testing, debugging and iterative feature refinement.

Global Market Expansion Analytics Dashboard (Oct 2025 – Feb 2026)

Project Lead | Business & Data Analyst

- Led the development of an interactive Power BI dashboard to evaluate and compare global market expansion opportunities for a sustainable brand.
- Defined stakeholder requirements, KPIs, and analytical criteria to assess market attractiveness, consumer demand, and financial viability.
- Cleaned, transformed, and modelled multiple public datasets, integrating market, consumer, and financial data for cross-market analysis.
- Developed Power BI KPI scorecards, interactive filters, drill-through views, and visualisations to compare market performance and identify regional trends.
- Translated dashboard findings into strategic recommendations, identifying high-potential markets and supporting data-driven expansion decisions.

PROFESSIONAL EXPERIENCE

Assistant Centre Manager | Personal Assistant

(Mar 2026 – Present)

Nanyang Educational Consultancy, Singapore

- Managed daily business operations supporting 150+ active students, overseeing enrolment, scheduling, invoicing, attendance and payment administration.
- Processed and reconciled over S\$100,000 in monthly tuition revenue using Microsoft Excel and Google Sheets, maintaining accurate billing, payment records and financial reporting.
- Analysed student enquiries and coordinated the admissions process, facilitating approximately 20 new student enrolments within two weeks through consultation scheduling and administrative support.
- Coordinated tutor deployment across 6 classrooms, optimising timetables, managing make-up lessons and resolving scheduling conflicts to minimise operational disruptions.
- Administered monthly payroll for 30+ employees, maintaining accurate attendance records, payroll documentation and confidential personnel information.

Guest Relations Host & F&B Associate

(Aug 2024 – Apr 2025)

Smoke & Mirrors, Singapore

- Managed front-of-house operations for a premium rooftop bar, serving 200+ guests per shift while delivering exceptional customer experiences in a fast-paced environment.
- Coordinated reservations, VIP seating, and guest flow using SevenRooms while responding to real-time operational changes during peak service.
- Contributed to nightly operations generating over S\$7,000 in revenue by maintaining efficient service standards and coordinating across service teams.
- Resolved guest issues and balanced customer expectations with operational priorities, demonstrating communication, problem-solving and multitasking in a high-volume environment.

LEADERSHIP & COMMUNITY INVOLVEMENT

Vice President | Assistant Human Resource Executive

(Apr 2025 – Present)

Peer Supporter Club, Nanyang Polytechnic

- Led a 10-member committee in managing club operations, delegating responsibilities and coordinating initiatives from planning through execution; reviewed event proposals for accuracy, completeness and compliance with school requirements prior to submission.
- Collaborated with external organisations including Boys' Town Youth Outreach and Care Corner, coordinating programme requirements and execution with external stakeholders to deliver student and community initiatives.
- Led the planning and execution of campus-wide events with 150+ participants, coordinating manpower, logistics and programme delivery to ensure smooth event operations.
- As Assistant HR Executive, managed member records, attendance tracking, resource audits, inventory and logistics coordination, and financial claims processing to support club operations.

Community Volunteer

(Apr 2024 – Present)

Nanyang Polytechnic – Community Outreach Initiatives

- Supported Project Rejuven-Aid by helping improve the living environments of seniors and lower-income households through home cleaning and refurbishment activities focused on community well-being and sustainability.
- Participated in Little Hands, Big Heart and inclusive outreach initiatives, including school familiarisation activities for students with autism, providing guidance to help participants navigate and understand the campus environment.

CERTIFICATIONS & ACHIEVEMENTS

- Top 5 Finalist, SCDF & Dell Lifesavers' Innovation Challenge – Project EchoSync (2026)
- Director's List, Nanyang Polytechnic (Sem 2 AY2025/2026, Sem 1 AY2025/2026)
- Edusave Merit Bursary (2026, 2025, 2024, 2021)
- AI Fluency: Framework and Foundations (2025)
- User Experience Design Fundamentals – IBM SkillsBuild (2025)
- Web Development Fundamentals – IBM SkillsBuild (2025)
- Edusave Awards for Achievement, Good Leadership and Service (2023)
- Edusave Scholarship (2023, 2022)
- Edusave Character Award (2022)
